Crud application(Employee management)

The main functionalities: View, Add, Update, and Delete employees.

Page Load:

On page load, provide an option to "Add Employee", "View Employees", and "Search Employee".

Adding Employees:

On click of "Add Employee", we can add employee details like name, email, contact, and salary on Register button click save the employee data

Updating Employees:

On the Update button click, we can update details.

Deleting Employees:

Create a section for deleting employees.

Implementation Technologies:

Use MySQL database to store employee data and use JSP to create dynamic web pages.
